MARTIAL LAW RELAXED  
IN CITY OF CHIHUAHUA

(By Associated Press.)

EL PASO, Oct. 18.—Martial law has been relaxed in Chihuahua City to the extent of allowing civilians the freedom of the streets until midnight, according to copies of El Democrata arriving here. In a proclamation published in that paper, General Trevino declared that he made this concession because conditions were again normal. Following the attack on the city by Villa a month ago, a stringent curfew law was enforced. Illustrative of the reign of terror that Villa has established in the parts he controls, El Democrata reproduces a pass written in mis-spelled Spanish issued by Villa to a Mexican subject on September 30. It gave the Mexican ten days in which to return to Villa territory on the penalty of being declared an enemy

and his family seized and burned to death.

Carranza organs make much of the order of General Funston, punishing the corporal and seven American soldiers who without permission crossed into Mexican territory near Presidio, Texas, on July 21.

"By this," one of the papers comment, "the United States has shown acquiescence to the request of the first chief that the troops of the punitive expedition should not move except in the direction of their own country."

Preparations are being made for a general movement of Carranza troops west from Chihuahua City in pursuit of Villa. A train load of ammunition has reached Chihuahua City from the south, a shortage of ammunition having delayed the campaign, reports received here from there state.

MORE GOLD COMES

(By Associated Press.)

NEW YORK, Oct. 18.—Another five million dollar consignment of British gold via Canada has been deposited in the assay office by Morgan & Co., making \$10,000,000 thus far this week. There is indication of resumption of the enormous imports which began early this year. According to unofficial estimates the amount of foreign gold, chiefly British, received in this country, approximates \$100,000,000.

REDMOND SCORES  
THE GOVERNMENT

(By Associated Press.)

LONDON, Oct. 18.—The Irish question was again brought before the house of commons today with the introduction by John Redmond of a motion criticising the government of the island. Since Redmond gave notice of intention to attack the government the Irish leaders have held several conferences with Baron Wimborne, lord lieutenant of Ireland. The question of conscription did not come under Redmond's motion. The conference probably had more to do with conscription than with the government, it is said.

DUC D'ORLEANS SEEKS  
TO ANNUL MARRIAGE

(By Associated Press.)

PARIS, Oct. 18.—The Duc d'Orleans is about to apply to the court of Rome for annulment of his marriage with the Archduchess Marie Dorothea of Austria, according to Figaro. The duke contends that the marriage was not concluded on the Austrian side in accordance with all the requirements of ecclesiastical law. The duchess won her suit for separation in January, 1914.

## McADOO PRAISES PRESIDENT

(By Associated Press.)

CHICAGO, Oct. 18.—Praise for President Wilson's diplomatic and legislative achievements, charges that "Wall Street always dominated the Republican party," and that victory for the Republicans next month would endanger the country's prosperity, were voiced by Secretary McAdoo before a noon political crowd.

## DEMONSTRATIONS ON STREETS OF ATHENS

Review of Sailors From Appropriated Vessels is Cause For Enthusiastic Outbursts on the Part of a People That Strenuously Object to Being Dragged Into War.

(By Associated Press.)

ATHENS, Oct. 18.—Marines from the ships of the entente powers to the number of about a thousand have been landed at Piraeus and have occupied the railway station at that place and several buildings in Athens. Immediately this became known the streets of Athens swarmed with Greeks, frantically cheering King Constantine and chanting the Greek national anthem. Great crowds marched through the streets, thousands gathering in the neighborhood of the postoffice square.

The war minister, General Dracos, ordered out Greek troops and marines to guard every approach to the square and in order to prevent any clash between Greek civilians and the French, who occupied that section, establishing a complete cordon about the French and taking all precautions to avoid any incident or accident capable of starting strife.

It is impossible to predict whether

trouble can be prevented. The Greek government is fully alive to the fact that Greece's fate hangs on the prevention of further measures on the part of the French commander.

Earlier in the day a review by King Constantine of the sailors belonging to the vessels of the Greek navy, which were taken possession of by the entente allies, was made the occasion of an immense royalist demonstration, crowds parading the streets, hauling life sized portraits of the sovereign and wildly cheering for the monarch.

Admiral Damianos, minister of marine, read an order of the day praising the loyalty of the sailors and complimenting them on their conduct under most trying circumstances.

After the ceremony the king assembled the officers about him and addressed them personally, expressing pride that they had scorned offers of money and honors and had

remained faithful to their oath to their country.

He gave his word that he would stand by them to the end against whatever consequences their loyalty might entail.

## Merely Police Reinforcements

(By Associated Press.)

ATHENS, Oct. 18.—The British legation explains that the landing of marines at Athens and Piraeus was merely intended to reinforce the police. It is generally thought, however, that this action was taken to prevent demonstrations like those of Monday morning.

## Situation Appears Dangerous

(By Associated Press.)

LONDON, Oct. 18.—A Reuters dispatch from Athens says:

"The situation appears to be dangerous. There have been royalist demonstrations in the streets. Admiral Du Fournet, commander of the

POWERS OF GREECE  
PRO-GERMAN INCLINED

(By Associated Press.)

PARIS, Oct. 18.—Every act of Vice Admiral Du Fournet, commander of the allied Mediterranean fleet in Greek waters, respecting control of the Greek administration, has been at the direction of the allied governments, it is explained, with the sole object of safeguarding the communications of the entente armies on the Macedonian front. Safety of the entente armies, it is declared, is endangered by what is regarded as the pro-German leanings of the king, cabinet and commanders of the army and navy.

## UNITED STATES WILL MAKE NO STATEMENT

(By Associated Press.)

WASHINGTON, Oct. 18.—The United States will not feel called upon to make public any statement regarding the raid of the U-53 or the submarine situation generally, it is learned today, as a consequence of a statement in the parliament of England by Viscount Grey that his government will not make official representations to the United States until announcement is made at Washington.

This government, he said, would not feel more called upon to make a statement to the allies about the German belligerent operations off the

American coast than it would report to Germany the recent visit of the French cruiser Admiral Aube to an American port, or any other allied operations on this side of the Atlantic. The information will be supplied if requested.

## Discussed in Parliament

(By Associated Press.)

LONDON, Oct. 18.—The question concerning the German submarine raid in American waters was raised by Baron Charles Beresford, former commander of the British home fleet; Earl Grey, former governor general of Canada, and others. Baron Beres-

ford asked whether British cruisers were removed from American waters owing to American objections and if so what steps the government proposed for the protection of British vessels. He criticised the submarine reply as at least curt, and said the American ideas of neutrality were curious.

Earl Grey wanted an assurance that the report was untrue that American commanders of destroyers had acceded to the request of the German commander to clear out of the way and give him room to blow up ships.

RESUME OF THE DAY'S  
DOINGS ON THE FRONT

(By Associated Press.)

With the occupation of Athens and Piraeus by marines from the warships of the entente powers, a tense situation has arisen in Athens. Great crowds of royalists have paraded the streets of the Greek capital, cheering the king and cordons of Greek troops and marines have been thrown about the railway stations, city hall, and other points occupied by the entente forces to prevent clashes between them and the royalists. An unofficial dispatch says Admiral Du Fournet was hissed by the throngs in the streets of Athens, and that a detachment of French sailors was driven back by the hostile crowd.

King Constantine, in a speech to the officers of his fleet, told him he would stand by them, no matter what consequences might follow their loyalty to Greece.

Volhynia, Galicia and Transylvania are still the points where the heaviest fighting is taking place. Along the Somme in France, bombardments alone have prevailed, except to the east of Belloy-en-Santerre, where the Germans threw two vain attacks against the French.

In Macedonia, the hostilities have been confined mainly to patrol engagements and artillery duels.

Throughout the Austro-Italian theater little fighting of moment has taken place.

The Austro-Germans, according to both Berlin and Vienna, have taken trenches over a front of one and a quarter miles from the Russians and made prisoners of 30 officers and 1900 men. West of Lutsk, in Volhynia, the Russians attacked violently many times, but, according to Vienna, were everywhere repulsed with great losses.

In the southern Carpathians, near Dorna Watra, additional heights have been taken from the Russians by the Teutonic allies.

In Transylvania, the Rumanians continue to hold back the Austro-Germans almost everywhere. In the Uzul valley, they have driven the invaders back across the Rumanian border.

No official representations will be made for the present to the United States by Great Britain concerning the German submarine U-53 entering an American port and the subsequent sinking of steamers off the American coast by the German underwater boat, according to an announcement made in the house of lords by Viscount Grey, the British foreign secretary.

## ITALY IS BUILDING GREYHOUNDS OF OCEAN

(By Associated Press.)

ROME, Oct. 18.—Italy possesses a type of warship whose speed is three times greater than the greatest transatlantic liner, according to the Giornale d'Italia. The trial of the first ship when completed was witnessed by a correspondent of the paper. Three others are building. All are using oil for fuel.

NINE BURNED  
TO DEATH IN  
FACTORY FIRE

(By Associated Press.)

NEW YORK, Oct. 18.—Seven persons were burned to death and two others who are missing are feared to have lost their lives in a fire which destroyed two factories in the manufacturing section of Queensborough late yesterday with a material loss estimated at \$250,000.

The charred bodies were not found until the flames had been extinguished and firemen were pouring water into the ruins of the buildings. All those burned were employed in the plant of the Oakes Dye Manufacturing company, where the flames started. The known dead:

Harry C. Cook, 42 years old, married, treasurer of the Oakes company. Frederick Crisman, 35, married, head bookkeeper of the company. Robert Vogel, 30, married, assistant bookkeeper.

Miss Emily Kiensel, 22, bookkeeper. Miss Depemann, 20, bookkeeper. Miss E. Faumann, 20, stenographer. Two more bodies have been found in the fire swept ruins of the Oakes Dye Manufacturing company's plant at Queensborough, bringing the total dead to nine, six of whom were young women. Investigators expressed belief that some of those perished in the effort to save the company's books.

EMBARGO PLACED UPON  
AMMUNITION EXPORTS

(By Associated Press.)

GENEVA, Oct. 18.—The Swiss government, in consequence of the economic arrangement with Germany, has prohibited Swiss factories from exporting ammunition to the entente allies if they are using German coal or steel. This order will render idle over 50,000 men, among whom there is much discontent. The proprietors of the factories met and protested against the order, arguing that Switzerland receives Belgian and not German coal, and that the entente allies supply raw material for their ammunition.

GREEKS IMPORE  
AMERICA'S AID

(By Associated Press.)

ATHENS, Oct. 18.—After a demonstration against the entente allies, wherein a procession of several thousand marched to the American legation and protested against the landing of French marines, a delegation of six called on the American minister and presented a resolution asking for the sympathy and protection of the United States against the encroachments of entente powers. The minister promised to forward the petition to Washington.

NORWAY REPLIES TO  
ENTENTE MEMORANDUM

(By Associated Press.)

LONDON, Oct. 18.—Norway has informed the entente allies that it does not recognize it to be its duty to prohibit the passage or sojourn in Norwegian waters by belligerent submarines, according to Reuters. The note was in reply to the memorandum by the entente powers to the neutrals suggesting that belligerent submarines be excluded from neutral waters.
